PROFILE

Full-stack developer pursuing an MCA, with hands-on experience building end-to-end web applications across the React/Next.js and Node.js ecosystem. Comfortable working through authentication, database design, and API integration, with a growing focus on production-style project architecture and deployment.

PROJECTS

Project Management App | Next.js, TypeScript, Tailwind CSS, AWS *Aug 2026 – Sep 2026*

- **Stack:** Next.js, Node.js, PostgreSQL (AWS RDS), Tailwind CSS, AWS Cognito, AWS EC2.
- Built a full-stack project management dashboard (boards, tasks, teams) with a Next.js frontend (Tailwind CSS, Material UI Data Grid, Redux Toolkit/RTK Query) and a Node.js/Express backend using PostgreSQL via Prisma.
- Integrated AWS services for deployment: Cognito for authentication, Lambda for serverless compute, and EC2/RDS for hosting the app and database.
- Debugged and resolved Tailwind CSS v3/v4 configuration and build issues to get styling and utility classes working correctly across the app.
